

Schoolyard Habitat Program®

Make your school grounds come alive!
Create a Schoolyard Habitat® Garden

This program offers official certification for schools to recognize good stewardship of the environment through the creation of a schoolyard habitat. In Delaware, this program is offered through a partnership between the National Wildlife Federation™ and state affiliate Delaware Nature Society.

HUGE gains for your school and the community!

- Create an outdoor teaching space for ALL students and staff.
- Interactive opportunities for student involvement.
- Great publicity for your school.
- Help the environment, protect native wildlife, reduce habitat fragmentation, and improve local water quality while saving money.
- Receive FREE technical assistance from Delaware Nature Society.
- Foster greater connections with your community.
- Take the first step in becoming a nationally recognized Eco-School®.

Simple steps to begin the process

1. Speak to your principal or administrator about your interest in this program.
2. Call us at 302-413-5070! We will help you get started.
